

ERRATUM

In the last issue of *Geoscience Canada* (v. 31, no. 2), Figure 1 (p. 59) in the paper by Barry Warner on the Geology of Canadian Wetlands printed with an incorrect pattern in the Hudson Bay Lowlands area. We apologize for this and reproduce the corrected figure below. The whole article and a replacement for page 59 are provided as PDF files under the Geoscience Canada portion of the on the GAC Website at www.gac.ca.

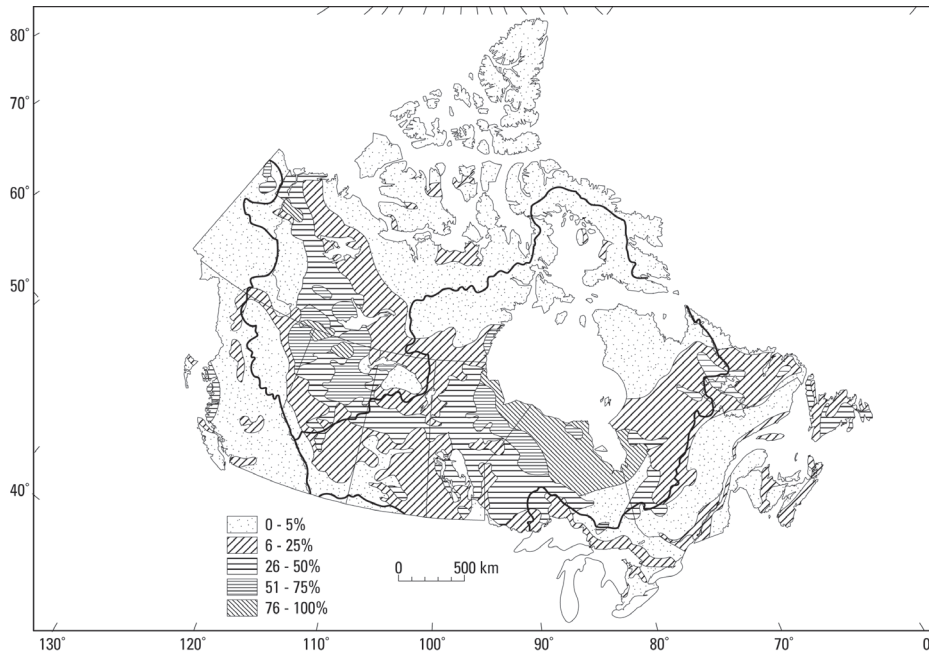

Figure 1. Distribution of peatlands in Canada (after Tarnocai et al., 2000). The extent of peatland compares well with the wetland map of Canada (Tarnocai et al., 2001), given that about 85% of Canada's wetlands are peatlands. The heavy lines on the map delineate the major drainage basins.

CORPORATE SUPPORT (2004)

The Geological Association of Canada acknowledges, with gratitude, the support of the following companies, universities, and government departments.

PATRON:

Anglo American Exploration Canada
De Beers Canada Exploration Inc.
Memorial University of Newfoundland
Noranda Inc./Falconbridge Ltd.

CORPORATE SPONSORS:

Alberta Energy & Utilities Board
C.S. Lord Northern Geoscience Centre
Geological Survey of Canada (Calgary)
Goldcorp Inc.
Husky Energy
INCO Technical Services (Copper Cliff)
Manitoba Industry, Trade and Mines
Newfoundland and Labrador Department of Natural Resources
Ontario Ministry of Northern Development
Petro-Canada
Royal Tyrrell Museum of Palaeontology
Saskatchewan Industry & Resources
Yukon Geological Survey

CORPORATE MEMBERS:

Acadia University
Activation Laboratories Ltd.
ALS Chemex
Aur Resources
Barrick Gold Corporation
Cogema Resources Inc.
Golder Associates Ltd.
IBK Capital Corp.
INCO Technical Services (Mississauga)
Juneau - John Rishel Mineral Information Center
Scintrex Ltd.
SRK Consulting
Strathcona Mineral Services Ltd.
Suncor Energy
Teck Cominco Ltd.
University of Calgary
University of New Brunswick
University of Toronto
Utah State University
Voisey's Bay Nickel Company Limited
