Those wishing to submit material for publication in *Geoscience Canada* should refer to the Instructions to Authors on the journal's website, www.geosciencecanada.ca

AUTHORS PLEASE NOTE:

Please use the web address <http://journals.hil.unb.ca/index.php/GC/index> for submissions; please do not submit articles directly to the editor.

The Mission of the Geological Association of Canada is to facilitate the scientific well-being and professional development of its members, the learned discussion of geoscience in Canada, and the advancement, dissemination and wise use of geosciences in public, professional and academic life. Articles in *Geoscience Canada* are freely available one year after their publication date. Opinions expressed and interpretations presented are those of the authors and do not necessarily reflect those of the editors, publishers and other contributors. Your comments are welcome.

Cover Image: The convoluted shorelines of the Belcher Islands in Nunavut provide a striking depiction of how stratigraphy and structure control physical geography. Their spectacular sedimentary and volcanic rocks also represent a remarkable window into the early Proterozoic and the origins of life. See McDonald and Partin (this issue) for more information. NASA Earth Observatory image developed from Landsat data by Jesse Allen at the University of Maryland.
