HYDROLOGY COURSE

University of New Brunswick

The Department of Civil Engineering at the University of New Brunswick, in co-operation with the Canadian National Committee for the International Hydrological Decade, are offering a course in HYDROLOGY commencing July 4th, 1966 for four weeks. The program will include lectures, laboratory and problem sessions, and field trips to local installations; an examination will be included at the end of the course.

For further details, contact

Assistant Professor Dale I. Bray,  
Department of Civil Engineering,  
University of New Brunswick,  
FREDERICTON, New Brunswick.

LABORATORY INSTRUCTORS IN GEOLOGY

University of New Brunswick

Instructors are required in the Department of Geology to assist in laboratory sections of elementary geology courses. Candidates must have at least B.Sc. or equivalent degree. One position is available immediately, and another in September, 1966. Salary according to qualifications and experience. Apply to:

The Chairman,  
Department of Geology,  
University of New Brunswick,  
FREDERICTON, N.B.

"COASTAL RESEARCH NOTES"

"Coastal Research Notes" contains news of coastal research interest such as investigations, announcements, trips, visits, preliminary results and other items. Material for inclusion should be sent to Dr. William F. Tanner, Florida State University, TALLAHASSEE, Florida.

Subscription for the publication is \$1.00 per year in U.S.A., Canada and Mexico, and \$1.50 elsewhere. Subscriptions should be sent to Dr. John H. Hoyt, Marine Institute, University of Georgia, SAPELO ISLAND, Georgia.

PUBLICATIONSNew Brunswick Research and Productivity Council

Record 2 The Occurrence of Economic Minerals, Rocks and Fuels in New Brunswick:

- Part A Industrial and Non-Metallic (1965)  
Part B Metallic (1965)  
Part C Bibliography of New Brunswick Geology (1965)  
Part D The Extent of Geological, Geophysical and Geochemical Investigation in New Brunswick (1966)

The above publications are available, price \$1.50 each part, from:

The New Brunswick Research and Productivity Council,  
P.O. Box 1236,  
FREDERICTON, N.B.

PLEISTOCENE GEOLOGIST: 1966 FIELD SEASONNew Brunswick Research and Productivity Council

A graduate student is required for the 1966 field season to assist with the prospecting of unconsolidated glacial material in New Brunswick. Duties will include the supervision of a sampling team and the mapping of glacial deposits. Salary commensurate with experience.

Apply:

The Executive Director,  
New Brunswick Research and Productivity Council,  
P.O. Box 1236  
FREDERICTON, N.B., Canada.

Department of Earth Sciences,

University of Waterloo

The University of Waterloo, Ontario, Canada, invites applications for at least two positions vacant in the Department of Earth Sciences. The positions will be filled from: sedimentology, stratigraphy, structural geology (with possible interest in experimental work and rock mechanics), clay mineralogy (to teach undergraduate mineralogy and do research on clays). All positions are permanent, and are effective September 1966. Salary and rank are dependent upon qualifications; Ph.D. required. Send applications with complete curriculum vitae to

Dr. P.F. Karrow,  
Department of Earth Sciences,  
University of Waterloo,  
WATERLOO, Ontario, Canada.

Closing date for applications in March 12, 1966.
