Airphoto lineaments in the Caldeonian area of southern New Brunswick: NAING	3	107	Environments, depositional, and sediments in the coastal zone of Prince Edward Island, Canada: BARTLETT	2	41
ALLEN, R. and RODA, R.S., Benthonic foraminifera from LaHave Estuary, Nova Scotia.	2	67	Estuary, LaHave, Nova Scotia, benthonic foraminifera from: ALLEN	2	67
Area, Quebec City, of the, <i>Bifungites cf halli</i> from the Ordovician (Caradocin) Trenton Limestone: PICKERILL	3	87	Evolution, crustal, of southern New Brunswick, the persistence and longevity of faults in the: O'BRIEN	3	93
BARTLETT, G.A., Depositional environments and sediments in the coastal zone of Prince Edward Island.	2	41	Faults in the crustal evolution of southern New Brunswick, the persistence and longevity of: O'BRIEN	3	93
Benthonic foraminifera from LaHave Estuary, Nova Scotia: ALLEN	2	67	Floor, the, of glacial lake Ojibway, Quebec and Ontario, relict iceberg furrows on: DIONNE	2	79
<i>Bifungites cf halli</i> from the Ordovician (Caradocin) Trenton Limestone of the Quebec City area: PICKERILL	3	87	Foraminifera, benthonic, from LaHave Estuary, Nova Scotia: ALLEN	2	67
BOWEN, A.J., see OWENS, E.H.	1	1	FORBES, W.B. see PICKERILL, R.K.	3	87
Brunswick, New, southern, airphoto lineaments in the Caledonian area of: NAING	3	107	Furrows, iceberg, relict, on the floor of glacial lake Ojibway, Quebec and Ontario: DIONNE	2	79
Brunswick, New, southern, an interpretation of the Golden Grove gravity high in: GUPTA	3	113	Glacial lake Ojibway, Quebec and Ontario, relict iceberg furrows on the floor of: DIONNE	2	79
Brunswick, New, southern, the persistence and longevity of faults in the crustal evolution of: O'BRIEN	3	93	Golden Grove, the, gravity high in southern New Brunswick, an interpretation of: GUPTA	3	113
BURKE, K.B.S., see GUPTA V.K.	3	113	Gravity high, Golden Grove, the, in southern New Brunswick, an interpretation of: GUPTA	3	113
Caledonian area of southern New Brunswick, airphoto lineaments in the: NAING	3	107	Grove, Golden, the, gravity high in southern New Brunswick, an interpretation of: GUPTA	3	113
Canada, depositional environments and sediments in the coastal zone of Prince Edward Island: BARTLETT	2	41	GUPTA, V.K. and BURKE, K.B.S., An interpretation of the Golden Grove gravity high in southern New Brunswick	3	113
Characteristics, oceanographic, physiographic and, of Chezzetcook Inlet, Nova Scotia: SCOTT	2	73	High, gravity, Golden Grove, the, in southern New Brunswick, an interpretation of: GUPTA	3	113
Chezzetcook Inlet, Nova Scotia, physiographic and oceanographic characteristics of: SCOTT	2	73	Iceberg furrows, relict, on the floor of glacial lake Ojibway, Quebec and Ontario: DIONNE	2	79
Coastal environments of the Maritime Provinces: OWENS	1	1	Inlet, Chezzetcook, Nova Scotia, physiographic and oceanographic characteristics of: SCOTT	2	73
Coastal zone, the, of Prince Edward Island, Canada, depositional environments and sediments in: BARTLETT	2	41	Interpretation, an, of the Golden Grove gravity high in southern New Brunswick: GUPTA	3	113
Crustal evolution of southern New Brunswick, the persistence and longevity of faults in the: O'BRIEN	3	93	Island, Prince Edward, Canada, depositional environments and sediments in the coastal zone of: BARTLETT	2	41
Depositional environments and sediments in the coastal zone of Prince Edward Island, Canada: BARTLETT	2	41	LaHave Estuary, Nova Scotia, benthonic foraminifera from: ALLEN	2	
DIONNE, J.C., Relict furrows on the floor of glacial lake Ojibway, Quebec and Ontario.	2	79	LAJTAI, E.Z. see NAING, W.	3	107
Edward, Prince, Island, Canada, depositional environments and sediments in the coastal zone of: BARTLETT	2	41	Lake, glacial, Ojibway, Quebec and Ontario, relict iceberg furrows on the floor of: DIONNE	2	79
Environments, coastal, of the Maritime Provinces: OWENS	1	1	Limestone, Trenton, Ordovician (Caradocin), of the Quebec City area, <i>Bifungites cf halli</i> from the: PICKERILL	3	87
			Lineaments, airphoto, in the Caldeonian area of southern New Brunswick: NAING	3	107

	<u>Number</u>	<u>Page</u>		<u>Number</u>	<u>Page</u>
Longevity of faults in the crustal evolution of southern New Brunswick, the persistence and: O'BRIEN	3	93	PICKERILL, R.K. and FORBES, W.B., <i>Bifungites cf halli</i> from the Ordovician (Caradocian) Trenton Limestone of the Quebec City Area.	3	87
MacGREGOR, C.D.R., Melmerby research restoration.	1	33	Prince Edward Island, Canada, depositional environment and sediments in the coastal zone of: BARTLETT	2	41
Maritime Provinces, coastal environments of: OWENS	1	1	Provinces, Maritime, the, coastal environments of: OWENS	1	1
Melmerby research restoration: MacGREGOR	1	33	Quebec and Ontario, relict iceberg furrows on the floor of glacial lake Ojibway: DIONNE	2	79
NAING, W. and LAJTAL, E.Z., Airphoto lineaments in the Caldeonia area of southern New Brunswick.	3	107	Quebec City area, of the, <i>Bifungites cf halli</i> from the Ordovician (Caradocian) Trenton Limestone: PICKERILL	3	87
New Brunswick, southern, airphoto lineaments in the Caledonian area of: NAING	3	107	Relict iceberg furrows on the floor of glacial lake Ojibway, Quebec and Ontario: DIONNE	2	79
New Brunswick, southern, an interpretation of the Golden Grove gravity high in: GUPTA	3	113	Research restoration, Melmerby: MacGREGOR	1	33
New Brunswick, southern, the persistence and longevity of faults in the crustal evolution of: O'BRIEN	3	93	Restoration, research, Melmerby: MacGREGOR	1	33
Nova Scotia, benthonic foraminifera from LaHave Estuary: ALLEN	2	67	RODA, S.S., see ALLEN, R.	2	67
Nova Scotia, physiographic and oceanographic characteristics of Chezzetcook Inlet: SCOTT	2	73	Scotia, Nova, benthonic foraminifera from LaHave Estuary: ALLEN	2	67
O'BRIEN, B.H., The persistence and longevity of faults in the crustal evolution of southern New Brunswick	3	93	Scotia, Nova, Physiographic and oceanographic characteristics of Chezzetcook Inlet: SCOTT	2	73
Oceanographic characteristics, physiographic and, of Chezzetcook Inlet, Nova Scotia: SCOTT	2	73	SCOTT, D.B., Physiographic and oceanographic characteristics of Chezzetcook Inlet, Nova Scotia.	2	73
Ojibway, lake, glacial, Quebec and Ontario, relict iceberg furrows on the floor of: DIONNE	2	79	Sediments in the coastal zone of Prince Edward Island, Canada, depositional environments and: BARTLETT	2	41
Ontario, Quebec and, relict iceberg furrows on the floor of glacial lake Ojibway: DIONNE	2	79	Southern New Brunswick, airphoto lineaments in the Caledonian area of: NAING	3	107
Ordovician (Caradocian) Trenton Limestone of the Quebec City area, <i>Bifungites cf halli</i> from the: PICKERILL	3	87	Southern New Brunswick, an interpretation of the Golden Grove gravity high in: GUPTA	3	113
OWENS, E.H. and BOWEN, A.J., Coastal environments of the Maritime Provinces	1	1	Southern New Brunswick, the persistence and longevity of faults in the crustal evolution of: O'BRIEN	3	93
Persistence, the, and longevity of faults in the crustal evolution of southern New Brunswick: O'BRIEN	3	93	Trenton, Ordovician (Caradocian), Limestone of the Quebec City area, <i>Bifungites cf halli</i> from the: PICKERILL	3	87
Physiographic and oceanographic characteristics of Chezzetcook Inlet, Nova Scotia: SCOTT	2	41	Zone, coastal, the, of Prince Edward Island, Canada, depositional environments and sediments in: BARTLETT	2	41
