KONGSBERG

EM 3002

EM 3002

Dynamically focused multibeam echo sounder

Highlights:

- Up to 254 soundings for the single head system, 508 soundings for the dual head
- Equidistant or equiangular beamspacing over the swath
- Fully stabilized for roll and pitch
- All beams maintained for all depths
- Complies with IHO-44 Special Order
- Applications:

Coastal engineering inspection and monitoring
 Environmental seabed and habitat mapping
 Acoustic backscatter imaging for the seabed
 Seabed sediment classification
 Mapping of biomass in the water column

Two years warranty!
