

# THE INTERNATIONAL HYDROGRAPHIC REVIEW

INTERNATIONAL HYDROGRAPHIC BUREAU  
MONACO

Vol. LXXII No. 2  
No. 137 OF THE SERIES

SEPTEMBER 1995

**OTHER PUBLICATIONS OF THE  
INTERNATIONAL HYDROGRAPHIC BUREAU**

(For other IHO publications and prices, the Catalogue of Publications 1995  
can be obtained gratis from the IHB)

**PERIODICAL PUBLICATIONS**

**P-3 International Hydrographic Bulletin**

Contains topical news, reports the work undertaken by the I.H. Bureau and the world hydrographic community, covers recent developments in hydrographic instrumentation and training programmes, describes new survey vessels, etc. Charts and publications issued by Hydrographic Offices are listed each month, and there is a comprehensive monthly bibliography on hydrography and related subjects. (Trilingual English, French, Spanish).

**P-5 IHO Yearbook**

Particulars and addresses of Hydrographic Offices throughout the world. Published every year. (Bilingual).

**MISCELLANEOUS PUBLICATIONS**

**M-4 Chart Specifications of the IHO and Regulations of the IHO for International (INT) Charts**

Gives chart specifications of the IHO for compiling nautical charts, together with agreed symbols and abbreviations adopted for general use by Member States (English, French and Spanish Editions).

**M-5 Standards of Competence for Hydrographic Surveyors - 7th Edition**

Describes the Standards for which recognition may be given to programmes of hydrographic training at Category A or B levels. Outlines procedures for submission, documentation, etc. and complete syllabi. (English, French and Spanish).

**M-11 Catalogue of International Charts and Guidance for Regional Coordinators of INT Chart Schemes**

Describes by means of indexes, texts and chartlets, the IHO International Chart Series at large, medium and small scales and provides directions to assist coordinators in following the principles established for INT charts schemes.

## SPECIAL PUBLICATIONS

- S-32 Hydrographic Dictionary.** Definition of words and terms used in hydrography and associated activities (English and French Editions)
- S-47 Training Courses in Hydrography and Nautical Cartography**  
Lists the training courses available on hydrography and nautical cartography in Member States' Hydrographic Offices and elsewhere in their countries. (English only).
- S-50 IHO Tidal Constituent Bank Station Catalogue**  
Catalogue of stations for which tidal constituents data is held by the Canadian Hydrographic Service on behalf of the IHO. Includes a floppy disk. (Trilingual, French and Spanish).
- S-51 Manual on Technical Aspects of the UN Convention on the Law of the Sea**  
Glossary of technical terms with a description of practical applications to boundary delimitation. (English and French).
- S-52 Provisional Specifications for Chart Content and Display of Electronic Chart Display and Information Systems (ECDIS)**  
Provisional Specifications prepared by COE Working Group on ECDIS. (English, French and Spanish). Appendices :  
Appendix 1 - Guidance on Updating the Electronic Chart.  
Appendix 2 - Provisional Specifications for ECDIS Colours and Symbols.  
Appendix 3 - Glossary of ECDIS related Terms
- S-57 IHO Transfer Standard for Hydrographic Digital Data**  
Standard prepared by the IHO's Committee on the Exchange of Digital Data (CEDD), for the coding and exchange of hydrographic digital data, including that intended for ECDIS purpose. (English only).
- S-59 Status of Hydrographic Surveying and Nautical Charting in Antarctica**  
A catalogue showing the extent of surveys, charting and oceanic bathymetry for the area south of 60°S latitude based on information provided by IHO Member States. (English only). —
- S-60 User's Handbook on Datum Transformations involving WGS-84**  
Contains constants and formulas to relate local/regional geodetic datums to the WGS-84. (English and French).

## BATHYMETRIC PUBLICATIONS

- B-1 General Bathymetric Chart of the Oceans (GEBCO) - 5th Edition**  
A series of 18 separate sheets in colour (75 x 110 cm) covering the world, plus one World Sheet in colour (100 x 126 cm).
- B-4 Information Concerning Recent Bathymetric Data.** Issued annually, this publication lists, for the previous 12 months, information concerning recent bathymetric data. (Bilingual, English-French).
- B-6 Standardization of Undersea Feature Names (Guidelines, Proposal Form, Terminology).** This publication is intended to ensure maximum standardization of the names of undersea features (English/French, Spanish, Russian, Japanese and Chinese Editions).
- B-7 GEBCO Guidelines.** This IHO-IOC publication, published by the IHB through collaboration between the IHO and the IOC under the aegis of the Joint IHO-IOC Guiding Committee for GEBCO, describes the role of each participant involved in the production of GEBCO. (English and French Editions).

**These publications as well as a free catalogue  
and information papers are available from:**

## The History of the RN Hydrographic Service 1919-1970

Rear Admiral R.O. Morris C.B.

From the minesweepers of 1919 to the purpose-built Hecla and Bulldog classes of the late 1960s, this history by a former Hydrographer of the Navy covers an exciting period which included the introduction of the echo-sounder, the advent of rotary offset printing and electronic position fixing, and surveying sonar after the war.

ISBN 0 11 772456 4 288 pages Hardback £35

Also available

## Astronomical Phenomena for the Year 1996

Prepared jointly by the Nautical Almanac Office, United States Naval Observatory and Her Majesty's Nautical Almanac Office, Royal Greenwich Observatory. Contains Phenomena, Chronological Cycles and Eras, Gregorian Calendar and Julian Day Numbers, Sunrise and Sunset Tables, Moonrise and Moonset Tables and other data.

ISBN 0 11 886500 5 74 pages Paperback £5.50

# The JOURNAL of NAVIGATION

Published for the Royal  
Institute of Navigation

EDITOR: PROFESSOR J. F. KEMP

The Journal of Navigation contains original papers on every aspect of navigation – over and through land, sea, air and space – including those papers presented at the meetings of the Institute together with the following discussion. Papers cover every aspect of the subject from the highly technical to the descriptive and historical. Subjects include: electronics, astronomy, mathematics, cartography, command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, and financial planning and law. The journal also publishes selected papers and reports from study groups, and book reviews. Contributions come from all parts of the world.

## **The Journal of Navigation is essential reading for:**

- ◆ Professional and amateur navigators at sea, in the air or on land
- ◆ Managers and executives of companies involved in the operation of airlines, shipping fleets or trucking
- ◆ Military personnel concerned with communications, command, control and information
- ◆ Managers and executives of companies involved in the development, production and sales of navigational equipment
- ◆ Governmental Departments responsible for the safety of air, marine and road traffic, including the deployment of emergency services
- ◆ Scientists and engineers in research establishments involved in navigational topics
- ◆ Academic staff associated with teaching or research in navigational topics, or with an interdisciplinary interest in navigation.

*The Journal of Navigation* is published by Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 2RU, England. Subscription rates: Volume 46: January, May and September 1993; £83/\$155, £29/\$53 for single parts; delivery by airmail £12 per year extra (dollar price includes airfreight to New York). ISSN 0373-4633

## **Why you should read *The Journal of Navigation***

- ◆ It deals with the whole range of navigation, not just satellite navigation, but history, finance and law, navigation of birds and animals so you are informed about the whole range of your subject
- ◆ It varies the type of article to suit the information being given; it includes book reviews and short discussion papers, not just full length research articles.
- ◆ Material is of a very high standard - all articles are refereed, and material is published in an average time of 6 months so that what you read is current and topicald
- ◆ It often carries a group of papers about one topic, so that you get a complete picture of the current situation

# Geological Magazine

## Scope

**Geological Magazine** is a bi-monthly journal covering the entire field of earth sciences. Coverage extends from hard rock to soft rock geology, palaeontology to geochemistry, turbidites to magmas, mineralogy to orogeny.

## Why you should read **Geological Magazine**

- ❖ Journal of international standing and distribution
- ❖ Coverage of all geological topics
- ❖ Extensive book review section keeps you up-to-date with other publications in your field
- ❖ Original scientific papers by leading authors
- ❖ Numerous diagrams and maps illustrate each article
- ❖ Important Rapid Communications section

## Essential reading for...

- practising geologists in industry •
- geological research workers •
- teachers and students of geology •
- conservationists and land use specialists •
- earth science librarians •

## Special offer

*Get the world's most celebrated geological magazine for less than half price!* As a special offer to students and members of the societies listed, we are offering **Geological Magazine** at a greatly reduced price.

Individual members of the following societies can subscribe for just £72 (normally £152).

- Geological Society of London • Geological Society of Australia • Geological Society of New Zealand
- European Union of Geosciences • Palaeontographical Society • Geologists' Association

## Offer to students

Subscribe now and pay only £36! A huge saving on the normal subscription rate of £152.

## Editors

M. J. Bickle, C. P. Hughes, I. N. McCave & N. H. Woodcock, *Department of Earth Sciences, University of Cambridge*

## Subscription

Volume 132 in 1995 published bi-monthly. £152; £72 for members of selected societies (see panel for details); £36 for students; airmail £31 per year extra. ISSN 0016-7568.

JOURNAL OF THE CANADIAN HYDROGRAPHIC ASSOCIATION

A journal dedicated to promoting the free exchange of information within the hydrographic community and to advancing the technical and professional ability of hydrographers.

It includes a variety of articles and topical news on advances in hydrography and historical perspectives.

Published twice yearly, in April and November, and is free to Association members.

Yearly subscription rates to non-members:

Residents of Canada \$20.00

Non-residents \$25.00 (Cdn.)

For further information regarding membership, article submission and advertising, please address all correspondence to:

The Editor, LIGHTHOUSE  
Canadian Hydrographic Association  
P.O. Box 5050  
867 Lakeshore Road  
Burlington, Ontario

Phone: (416)336-4856

**INTERNATIONAL HYDROGRAPHIC REVIEW**

## FOREWORD

The *International Hydrographic Review* is published twice a year (March and September) in separate English and French editions.

Original articles are welcomed on hydrography, oceanography, cartography, geodesy, navigation, photogrammetry, radio aids, automation, new instruments, equipment and hydrographic vessels, as well as on the history and organization of hydrographic offices.

The latest date for receipt of manuscripts is:

- 1 October for the March issue,
- 1 May for the September issue,

but earlier submission greatly facilitates the work of preparing translations.

Articles should be addressed to: The Directing Committee, International Hydrographic Bureau, B.P. 445, MC 98011 MONACO Cedex (Principality of Monaco).

Up to 50 reprints per article can be supplied free to the author(s). They must be ordered prior to publication, and may be in either language or a proportion in each. Further copies ordered are charged at cost price, plus postage.

**The Directing Committee does not hold itself responsible for statements or opinions expressed by contributors to the Review.** It is the normal practice that articles are accepted based on external reviewers.

### Notes for contributors

Papers should be as concise as possible and an abstract of up to 150 words is desirable. Uncommon expressions or constructions and particularly professional jargon should be avoided since a large proportion of readers are necessarily reading the Review in a language that is not their mother tongue.

Any permission needed to incorporate material published elsewhere is the responsibility of authors, and it will be assumed that such permission has been obtained.

Texts should be submitted in English or French (or both), though by special arrangement articles in Spanish could be accepted for translation in the Bureau.

Articles should preferably be provided in floppy disk, operative system MSDOS 5.0 or inferior and Wordperfect 5.1 software or compatible. The floppy disk should be accompanied by a typed copy of the article.

Bibliographic references should be listed at the end of the article in the standard Harvard form. Footnotes should be kept to a minimum, and metric measures used throughout.

Illustrations, already numbered and titled, should be supplied ready for reproduction by the offset method and for reduction to 12.5 x 21 cm, the effective size of a Review page. Positive transparencies (repromats) are preferred. Photographs should be black and white with good definition and be limited to those necessary for an understanding of the text. Colour transparencies cannot be accepted. Coloured photographs and plates can only be accepted under special terms that must be discussed directly with the Editor. Reproduction of charts and maps must provide clear definition of the features to be portrayed.

As the Review is a two-language publication a minimum of wording should be shown on the illustrations themselves, explanations being confined to the legend beneath.

Printer's proofs are corrected in the Bureau and are not normally sent to authors.
