## TABLE OF CONTENTS

---

- Analysis and calibration of Loran-C signals in the lower St. Lawrence area using GPS (G. LACHAPELLE, B. TOWNSEND, and D. HAINS) .....	7
• - Some observations on the use of GPS and charts (D. SIMPSON) .....	29
- An example of the use of differential GPS for hydrographic surveying (G. BESSERO) .....	39
- HSD-001 real DGPS ocean survey location system (LIANG KAILONG, WANG JIANWEN and Dalian Naval Academy, People's Republic of China) .....	57
• - Cartographic problems of global positioning (F. MAYER) .....	63
- Computer assisted cartography at the Hydrographic and Oceanographic Service of the Chilean navy (H. GORZIGLIA) .....	71
- Precise computation by numerical integration of very long geodesic and comparison with approximate methods (TADAO TATSUNO) .....	87
- Racal system 960 and the Royal New Zealand Navy's HADLAPS project (L.ROBBINS) .....	103
- Modernisation of the Norwegian tide gauge network (B. KVAMME, I.B. ERIKSON, D. HAREIDE, K. DISERUD MILDAL, N. SLOTSVIK, T. TØRRESEN) .....	113
- Hydrographic data bases for tidal numerical models (K.J. GEORGE) ..	135
- Fifty years ago ... ..	151
