

**THE
INTERNATIONAL HYDROGRAPHIC REVIEW**

FOREWORD

The *International Hydrographic Review* is published twice a year (January and July) in separate English and French editions.

Original articles are welcomed on hydrography, oceanography, cartography, photogrammetry, geodesy, navigation and allied subjects, radio aids, automation, new instruments, equipment and hydrographic vessels, as well as on the history and organization of hydrographic offices.

The latest date for receipt of manuscripts is :

— 1 August for the January issue,

— 1 February for the July issue,

but earlier submission greatly facilitates the work of preparing translations.

Articles should be addressed to : The Directing Committee, International Hydrographic Bureau, B.P. 345, MC MONACO (Principality of Monaco).

Up to 50 reprints per article can be supplied free to the author(s). They must be ordered prior to publication, and may be in either language or a proportion in each. Further copies ordered are charged at cost price, plus postage.

The Directing Committee does not hold itself responsible for statements or opinions expressed by contributors to the Review.

Notes for contributors

Papers should be as concise as possible for maximum reader value, and an abstract of up to 150 words is desirable. Uncommon expressions or constructions should be avoided since a large proportion of readers are necessarily reading the Review in a language that is not their mother tongue.

Any permission needed to incorporate material published elsewhere is the responsibility of authors, and it will be assumed that such permission has been obtained.

Texts should be submitted in English or French (or both), though by special arrangement articles in Spanish, Italian or German could be accepted for translation in the Bureau.

Two copies of the article are required, typed in double spacing with adequate margins and on one side of the paper only. Authors should check manuscripts very carefully as no responsibility can be taken for errors of fact or presentation.

Bibliographic references should be listed at the end of the article in the standard Harvard form. Footnotes should be kept to a minimum, and metric measures used throughout.

Illustrations, already numbered and titled, should be supplied ready for reproduction by the offset method and for reduction to 12.5×21 cm, the effective size of a Review page. Positive or negative transparencies (repromats) are preferred. Photographs should be black and white glossy prints and be limited to those necessary for an understanding of the text.

As the Review is a two-language publication a minimum of wording should be shown on the illustrations themselves, explanations being confined to the legend beneath.

Printer's proofs are corrected in the Bureau and are not normally sent to authors.

TABLE OF CONTENTS

-- Obituary — Ammiraglio di Divisione Alfredo VIGLIERI	7
— The IHO International Chart — the way ahead	11
(IHB Directing Committee).	
— K. D. Mutiara — the new survey ship of the Royal Malaysian Navy ..	15
(S. C. GOH, with Maierform GmbH and Prakla-Seismos GmbH).	
— Standards of competence for hydrographic surveyors	25
(D. C. KAPOOR).	
— WRELADS — the Australian laser depth sounding system	31
(M. CALDER).	
— Off-line contouring of the data from the multi-beam “Sea Beam” ..	55
(Y. DESNOES).	
— Stable and enduring monuments for vertical control networks	77
(R. P. FLOYD).	
— Appraising the case for a hydrographic survey vessel: the planner’s viewpoint (B. S. DYDE, S. J. UHLIG)	87
— Hydrography and navigation (L. OUDET)	101
— Definition of the seabed in navigation routes through mud areas ..	107
(R. KIRBY, W. R. PARKER, W. H. A. van OOSTRUM).	
— Note on the use of field data to test and verify North Sea models ..	119
(A. M. DAVIES, N. S. HEAPS).	
— An improved method for smoothing and interpolating hourly sea level data (D. A. KARUNARATNE)	135
— Processing of tidal records at Hout Bay Harbour (C. L. MERRY)	149
— Theoretical offshore tide range derived from a simple Defant tidal model compared with observed offshore tides	155
(S. K. GILL, D. L. PORTER).	
— Aerial photography and the use of helicopters in hydrography	169
(B. J. S. KARALUS).	
— Fifty years ago	177
