Vol. XLIX, No. 1, January 1972

WORLD BATHYMETRIC CHARTS

The author has his attention called to the fact that the statement on page 154, lines 14-17, is no longer absolutely correct.

By the end of 1972, 85% of the sheets of this World Map on 1/2 500 000 had been published, and it is expected that the whole set of sheets will be available during 1973.

This enormous, remarkably detailed, world cartographic effort will thus finally be completed.
