

## MAGNETIC CHART OF GREECE - 1937

---

The Hydrographic Office of the Royal Grecian Navy has published a magnetic chart of Greece compiled from observations made in 1936 by the Hellenic Hydrographic Office, with reduction to 1st January 1937 of other observations previously made. This chart is annexed to the *Report on Terrestrial Magnetic Measurements in Greece* submitted by the Hellenic Geodetic Committee to the Assembly of the International Union of Geodesy and Geophysics held at Edinburgh.

A reproduction of this chart, in black, brought up to date 1938 is given opposite.
