

HYDROGRAPHIC
BIBLIOGRAPHYBIBLIOGRAPHIE
HYDROGRAPHIQUEI. — BOOKS OF REFERENCE
OUVRAGES DE RÉFÉRENCE

AERIAL PHOTOGRAPHY. — PHOTOGRAPHIE AÉRIENNE.

3833. — **La Fotogrammetria nel momento attuale.** (Photogrammetry at the present moment. — La Photogrammètrie au moment actuel).
by G. CASSINIS — 19 × 26 cm. 2 pp. — R. Istituto Superiore di Ingegneria, Milano 1936.
3834. — **La Fotogrammetria nelle sue applicazioni nel campo della balistica sperimentale al balipendio di Viareggio.** (Photogrammetry in its applications within the field of experimental ballistics at the Viareggio firing ground). — La Photogrammètrie dans ses applications dans le domaine de la balistique expérimentale au champ de tir de Viareggio.
by A. BROFFERIO — 19 × 26 cm. 28 pp. ill. — R. Istituto Superiore di Ingegneria, Milano 1935.
3835. — **I problemi industriali della fotogrammetria.** (The industrial problems of Photogrammetry. — Les problèmes industriels de la Photogrammètrie).
by U. NISTRÌ — 19 × 26 cm. 16 pp. — R. Istituto Superiore di Ingegneria, Milano 1936.
3836. — **Il Fotostereografo Nistri.** (The Nistri Photostereograph. — Le Photostéréographe Nistri).
by G. CASSINIS — 19 × 26 cm. — 8 pp. ill. — R. Istituto Superiore di Ingegneria, Milano 1935.
3837. — **Criteri e procedimenti per la formazione delle mappe Catastali con la fotogrammetria aerea.** (Critical features and procedures for the drawing up of the cadastral maps by means of aerial photography. — Critères et procédés pour l'établissement des cartes cadastrales au moyen de la photographie aérienne).
by M. TUCCI — 19 × 26 cm. 22 pp. ill. — R. Istituto Superiore di Ingegneria, Milano 1935.
3838. — **Stato e sviluppo dei lavori di formazione del Catasto Italiano.** (State and development of the work for the establishment of the Italian Government Survey. — Etat et développement des travaux d'établissement du cadastre italien).
by A. GRANDI — 19 × 26 cm. — 21 pp. ill. — R. Istituto Superiore di Ingegneria, Milano 1935.
3839. — **Il problema del vertice di piramide.** (The problem of the pyramid vertex. — Le problème du sommet de la pyramide).
by L. SOLAINI — 19 × 26 cm. — 52 pp. ill. — R. Istituto Superiore di Ingegneria, Milano 1935.

3840. — **Roentgenfotogrammetria.** (Roentgenphotogrammetry. — Roentgenphotogrammètrie).
by M. PIAZZOLLA-BELOCH — 19 × 26 cm. — 19 pp. *ill.* — R. Istituto Superiore di Ingegneria, *Milano* 1936.
3841. — **Cartografia coloniale e impiego della Fotogrammetria.** (Colonial cartography and use of Photogrammetry. — Cartographie coloniale et emploi de la Photogrammètrie).
by P. BELFIORE — 19 × 26 cm. — 36 pp. *ill.* — R. Istituto Superiore di Ingegneria, *Milano* 1936.

ECHO SOUNDING. — SONDAGE PAR LE SON.

3842. — **Echo Sounding equipment for ships.** (Matériel écho-sondeur pour navires).
by I. F. HUTCHINGS. — 14 × 21 cm. — 30 pp. *ill.* — Institution of Engineers and Shipbuilders in Scotland, *Glasgow* 1936.

PROJECTIONS.

3843. — **Sur quelques nouvelles projections à méridiens elliptiques.** (On some new projections with elliptical meridians).
by R.V. PUTNINS — 16 × 24 cm. — 8 pp. *ill.* — Kasa Im. Mianowskiego, *Rue Nowy Swiat, 72, Varsovie* 1935.

TIDES AND CURRENTS. — MAREES ET COURANTS.

3844. — **Tides in Oceans bounded by meridians.**
- I. Ocean bounded by complete meridian : General equation by J. PROUDMAN.
 - II. Ocean bounded by complete meridian : Diurnal Tides by A.T. DOODSON.
(Les marées dans les océans bordés par des méridiens).
 - I. Océan bordé par des méridiens complets: Equation générale par J. PROUDMAN.
 - II. Océan bordé par des méridiens complets: Marées diurnes par A.T. DOODSON.
23 × 30 cm. — 70 pp. *ill.* — Royal Society of London, 1936.
3845. — **Friction in the tidal currents of the Bristol Channel.** (Le frottement dans les courants de marée du Canal de Bristol).
by S.F. GRACE — 17 × 25 cm. — 8 pp. *ill.* — Royal Astronomical Society, *London* 1936.
3846. — **Ricerche sulle caratteristiche del moto ondoso nel Mediterraneo e sulla teoria del Cornaglia.** (Researches on the characteristics of the undulatory movement in the Mediterranean and on Cornaglia's theory. — Recherches sur les caractéristiques du mouvement ondulatoire dans la Méditerranée et sur la théorie de Cornaglia).
by A. d'ARRIGO — 22 × 31 cm. — 42 pp. *ill.* — Stabilimento Tipografico del Genio Civile, *Roma* 1937.

3847. — **A Study of the circulation of the western North Atlantic.** (Etude de la circulation dans la partie occidentale de l'Atlantique Nord).
by O.D. ISELIN — 22 × 28 cm. — 101 pp. ill. — Massachusetts Institute of Technology, Cambridge, Mass. 1936.
3848. — **Quantitative Untersuchungen zur Statik und Dynamik des Atlantischen Ozeans — 2 Lieferung — Ausbreitungs- und Vermischungsvorgänge im Antarktischen Bodenstrom und im Subantarktischen Zwischenwasser.** (Quantitative research on the statics and dynamics of the Atlantic Ocean : the phenomena of diffusion and mixing of the Antarctic bottom water and the subantarctic intermediate water. — Recherches quantitatives sur la statique et la dynamique de l'Océan Atlantique : phénomène d'extension et de mélange du courant de fond antarctique et de l'eau intermédiaire subantarctique).
by A. DEFANT — 23 × 30 cm. — 40 pp. ill. — W. de Gruyter & Co, Berlin 1936.

TOPOGRAPHY. — TOPOGRAPHIE.

3849. — **Emploi de l'Astrolabe à prisme pour la détermination des positions géographiques.** (The use of the prismatic Astrolabe for the determination of geographical positions).
by A. GOUGENHEIM — 15 × 22 cm. — 111 pp. ill. — Service Hydrographique, Paris 1936.
3850. — **La Bussola Giroscopica e la sua applicazione nella topografia.** (The gyroscopic compass and its application in topography. — La boussole gyroscopique et son application en topographie).
by M. BOSSOLASCO — 17 × 25 cm. — 12 pp. ill. — Tipografia Nappa & Pagano, Via Università, 51, Napoli 1931.
3851. — **Studio di alcuni strumenti topografici moderni.** (Study of a few modern topographical instruments. — Etude de quelques instruments topographiques modernes).
by L. SOLAINI — 19 × 26 cm. — 44 pp. ill. — R. Istituto Superiore di Ingegneria, Milano 1936.

NAVIGATION.

3852. — **O ponto observado no ar e no mar com taboas nauticas ultra simplificadas.** (The fix observed in the air and on the sea, together with ultra-simplified nautical tables. — Le point observé dans l'air et sur la mer avec des tables nautiques ultra-simplifiées).
by R. DE AQUINO — 16 × 23 cm. — 30 pp. ill. — Imprensa Naval, Rio de Janeiro, 1936.

GEODESY. — GÉODÉSIE

3853. — **Questioni di Gravimetria.** (Gravimetric questions. — Questions gravimétriques).
by G. CASSINIS — 19 × 26 cm. — 43 pp. ill. — R. Istituto Superiore di Ingegneria, Milano 1934.

3854. — **Effeto dell'ellissoidicità della terra nella riduzione delle misure di gravità.** (Effect of the ellipticity of the Earth in the reduction of gravity measurements. — Effet de l'ellipticité de la Terre dans la réduction des mesures de gravité).
by S. BALLARIN — 19 × 26 cm. — 8 pp. — R. Istituto Superiore di Ingegneria, *Milano* 1935.
3855. — **Relazione preliminare sulla seconda Crociera gravimetrica italiana in sommergibile nel Mediterraneo.** (Preliminary report on the second Italian gravimetric cruise on board a submarine in the Mediterranean. — Rapport préliminaire sur la seconde croisière gravimétrique italienne en sous-marin dans la Méditerranée).
by G. CASSINIS — 19 × 26 cm. — 8 pp. — R. Istituto Superiore di Ingegneria, *Milano* 1935.
3856. — **Isostasia ed ondulazioni del geoide in rapporto alle anomalie gravimetriche ed alle deviazioni della verticale.** (Isostasy and undulations of the geoid in connection with the gravimetric anomalies and the deviation of the plumb line. — Isostasie et ondulation du géoïde au point de vue des anomalies gravimétriques et de la déviation de la verticale).
by M. BOSSOLASCO — 15 × 22 cm. — 26 pp. — Akademische Verlagsgesellschaft, *Leipzig* 1930.
3857. — **Relative Bestimmung der Schwerkraft in Finnland in den Jahren 1931, 1933 und 1935.** (Relative determination of gravity in Finland in the years 1931, 1933 and 1935. — Détermination relative de la pesanteur en Finlande dans le courant de 1931, 1933 et 1935).
by R.A. HIRVONEN — 17 × 25 cm. — 150 pp. ill. — Finnisches Geodätisches Institut, *Helsinki* 1937.
3858. — **Observations of Tidal Motions of the Earth's Crust made at the Geophysical Institute - Bergen.** (Observations de mouvements marémétriques de l'écorce terrestre faites à l'Institut Géophysique de Bergen).
by J. EGEDAL & J.E. FJELDSTAD. — 23 × 31 cm. — 30 pp. ill. — Danske Meteorologiske Institut, *Kobenhavn* 1937.

TERRESTRIAL MAGNETISM. — MAGNÉTISME TERRESTRE.

3859. — **Il magnetismo terrestre alla luce delle osservazioni fatte durante l'Anno Polare Internazionale 1932-33.** (Terrestrial magnetism in the light of observations made during the 1932-33 International Polar Year. — Le magnétisme terrestre du point de vue des observations faites au cours de l'Année Polaire Internationale 1932-33).
by M. BOSSOLASCO — 19 × 27 cm. — 29 pp. ill. — Istituto Geodetico e Geofisico, Università di Palermo, 1935.
3860. — **Influenza lunare sulla declinazione magnetica.** (Lunar influence on magnetic declination. — Influence lunaire sur la déclinaison magnétique).
by M. BOSSOLASCO — 17 × 25 cm. — 4 pp. — Istituto Geodetico e Geofisico, Università di Palermo, 1937.
-

OCEANOGRAPHY. — Océanographie

3861. — **Beiträge zur Hydrographie der Südlichen Noordsee — Auf Grund der Beobachtungen der Winterfahrten des R. F. D. "Poseidon" im Januar 1935 und Februar 1936.** (Contributions to the Hydrography of the Southern North Sea, on the basis of the observations made during the winter voyage of the Reich exploring vessel "Poseidon" in January 1935 and February 1936. — Contributions à l'hydrographie de la partie méridionale de la Mer du Nord, sur la base des observations faites au cours de la croisière d'hiver du navire explorateur du Reich "Poseidon" en Janvier 1935 et Février 1936).
by E. GEODECKE — 23 × 30 cm. — 28 pp. ill. — Deutsche Seewarte, Hamburg 1936, Pr. R.M. 2.
3862. — **Temperatures of the Western North Atlantic from thermograph records.** (Températures de la partie occidentale de l'Atlantique Nord d'après des enregistrements de thermomètres enregistreurs).
by P.E. CHURCH — 17 × 25 cm. — 32 pp. ill. — Association d'Océanographie Physique, The University, Liverpool, 1937.
3863. — **Die Erforschung der Bodenkonfiguration des Australasiatischen Mittelmeeres durch die holländische "Snellius" Expedition.** (The exploration of the bottom configuration of the Australasian Mediterranean by the Dutch "Snellius" Expedition. — L'exploration de la configuration du fond de la Méditerranée australasienne par l'expédition hollandaise à bord du "Snellius").
by G. WUST — 17 × 25 cm. — 12 pp. ill. — Gesellschaft für Erdkunde, Berlin 1936.

METEOROLOGY. — MÉTÉOROLOGIE

3864. — **Problemi relativi alla definizione del clima solare.** (Problems relating to the definition of the solar climate. — Problèmes relatifs à la définition du climat solaire).
by A. PUPPO — 17 × 24 cm. — 11 pp. — R. Istituto Superiore di Ingegneria, Milano 1937.

II. — DOCUMENTARY BIBLIOGRAPHY BIBLIOGRAPHIE DOCUMENTAIRE

TIDES AND CURRENTS. — MARÉES ET COURANTS.

3865. — **Notes on the findings of the "William Scoresby" in the Peru Coastal Current.** (Notes sur les constatations faites par le "William Scoresby" dans le courant côtier du Pérou).
by R.C. MURPHY — Cf. *Geographical Review, New-York, April 1937, pp. 295-300.*
3866. — **L'effet dynamique des perturbations atmosphériques sur les marées.** (The dynamic effect of atmospheric perturbations on the tides).
by PHALIP — Cf. *La Revue Maritime, Paris — Avril 1937, pp. 433-449.*
3867. — **Mean sea level and its changes.** (Niveau moyen de la mer et ses variations).
by R. WITTING — Cf. *Bulletin Géodésique, Paris N° 46-1935, pp. 304-307.*
3868. — **The Gulf Stream in the light of Experimental Fluid Mechanics.** (Le Gulf Stream du point de vue de la mécanique expérimentale des fluides).
by C.G. ROSSBY — Cf. *Association d'Océanographie Physique, General Assembly at Edinburgh, Procès-Verbaux N° 2, Liverpool 1937, pp. 124-126.*
3869. — **Internal waves.** (Ondes internes).
by J.E. FJELDSTAD — Cf. *Association d'Océanographie Physique, General Assembly at Edinburgh, Procès-Verbaux N° 2, Liverpool 1937, pp. 141-142.*
3870. — **Unsolved problems in Tidal Analysis.** (Problèmes non résolus en matière d'analyse des marées).
by A.T. DOODSON — Cf. *Association d'Océanographie Physique, General Assembly at Edinburgh, Procès-Verbaux N° 2, Liverpool 1937, p. 143.*
3871. — **Wind as a factor in the ocean circulation.** (Le vent en tant que facteur dans la circulation océanique).
by C.G. ROSSBY — Cf. *Association d'Océanographie Physique, General Assembly at Edinburgh, Procès-Verbaux N° 2, Liverpool 1937, pp. 77-78.*
3872. — **An approximate calculation of the turbulent ocean current.** (Calcul approché du courant océanique turbulent).
by M. OKADA — Cf. *Bulletin of the Japanese Society of Scientific Fisheries, Tokyo, March 1937, pp. 341-345.*
3873. — **The prediction of Tides.** (La prédiction des Marées).
by U. E. G. — Cf. *The Nautical Magazine, Glasgow, March 1937, pp. 222-224.*
3874. — **La propagation et la prévision de la houle.** (The propagation and forecasting of swell).
by L. de V. ROUX — Cf. *La Revue Maritime, Paris, Février 1937, pp. 145-165.*
-

SURVEYING EXPEDITIONS. — MISSIONS.

3875. — **Hydrographic surveys along the Northern shores of the Soviet Union.** (Travaux de levé hydrographique le long des côtes septentrionales de l'Union Soviétique).
by J. SCHOKALSKY — Cf. *Polar Records*, Cambridge, July 1936, pp. 128-133.
3876. — **The Survey of the Gulf of Paria.** (Levé du Golfe de Paria).
by E.J. ANDERSON — Cf. *The Military Engineer*, Washington, Jan-Feb. 1937, pp. 56-58.

 ANCIENT CARTOGRAPHY.
 CARTOGRAPHIE ANCIENNE

3877. — **L'influence portugaise sur la cartographie nautique néerlandaise du XVI^{me} siècle.** (The Portuguese influence on the Dutch cartography of the 16th century).
by D. GERNEZ — Cf. *Annales de Géographie*, Paris, 15 jan. 1937 - pp. 1-9.

 NAVIGATION.

3878. — **Sulla retta radiogoniometrica considerata come retta d'azimut.** (On the radio-bearing line considered as azimuth line. — La droite radiogoniométrique considérée comme droite d'azimut).
by G. SIMEON — Cf. *Annali R. Istituto Superiore Navale*, Vol. V, fasc. II, Napoli 1936 — pp. 241-258.
3879. — **Sulle altezze circummeridiane.** (On circummeridian heights. — Les hauteurs circumméridiennes).
by M. ZITO — Cf. *Suppl. alla Rivista Marittima*, Roma, Dec. 1936 — pp. 69-73.
3880. — **Sulla correzione azimutale.** (On azimuthal correction. — Sur la correction azimutale).
by D. SPANO — Cf. *Annali R. Istituto Superiore Navale*, Vol. V - fasc. II, Napoli 1936 — pp. 297-312.
3881. — **Osservazioni di astri nell'almicantarato del polo.** (Observations of stars on the altitude circle of the Pole. — Observations d'étoiles sur l'almicantarato du Pôle).
by E. MODENA — Cf. *Suppl. alla Rivista Marittima* - Roma, Dec. 1936, pp. 59-62.
3882. — **Longitude by H. O. 208 and the Eclipse.** (Longitude au moyen de la publication H.O. 208 et de l'éclipse).
by R.W. MINDTE — Cf. *U.S. Nav. Instit. Proceedings*, Annapolis, Feb. 1937 - p. 193-194.
3883. — **Star finding with the Nautical Almanac chart.** (Identification des étoiles au moyen de la carte du "Nautical Almanac").
by E.B. COLLINS — Cf. *U.S. Naval Institute Proceedings*, Annapolis, Jan. 1937 - pp. 79-82.

3884. — **Distances and refraction on or near the apparent horizon.** (Distances et réfraction sur l'horizon apparent ou près de celui-ci).
by G. T. M. — Cf. *Empire Survey Review, London, April 1937, pp. 70-79.*
3885. — **Meridianbeobachtungen nahe dem Zenit.** (Meridian observations near the zenith. — Observations méridiennes près du zénith).
by M. HARMS — Cf. *Der Seewart, Hamburg, Jan. 1937, pp. 20-22.*
3886. — **Zur Grosskreis-Berechnung.** (On great circle computation. — Relativement au calcul orthodromique).
by J. LÜTJEN — Cf. *Der Seewart, Hamburg, Jan. 1937, pp. 11-17.*

INSTRUMENTS.

3887. — **Polistaziografo "Bresca".** (The "Bresca" multiple station-pointer. — Le Stigmographe multiple "Bresca").
by G. SIMEON — Cf. *Annali R. Istituto Superiore Navale, Vol. V, fasc. II, Napoli 1936, pp. 271-296.*
3888. — **The averaging sextant.** (Le sextant moyenneur).
by P.V.H. WEEMS — Cf. *U.S. Naval Institute Proceedings, Annapolis, April 1937 — pp. 558-559.*
3889. — **Optical lenses moulded from plastic materials.** (Lentilles optiques obtenues par moulage de matières plastiques).
Cf. *Nature, London, Feb. 20, 1937, p. 336.*
3890. — **Clocks showing mean and sidereal Time simultaneously.** (Horloges indiquant simultanément le temps moyen et l'heure sidérale).
by F. HOPE JONES — Cf. *Journal of the Franklin Institute, Philadelphia, Jan. 1937 — pp. 95-100.*

GEODESY. — GÉODÉSIE.

3891. — **Registrazione automatica delle oscillazioni dei pendoli gravimetrici.** (Automatic recording of the oscillations of gravity pendulums. — Enregistrement automatique des oscillations des pendules gravimétriques).
by M. CHELLA — Cf. *Bollettino del Comitato per la Geodesia e la Geofisica, N° 12, Milano 1935 — pp. 9-21.*
3893. — **Sullo spoglio dei fotogrammi gravimetrici.** (On the spoiling of gravity photograms. — Sur l'altération des photogrammes gravimétriques).
by B. GULOTTO — Cf. *Bollettino del Comitato per la Geodesia e la Geofisica, N° 2, Milano 1935 — pp. 85-97.*
3894. — **Considerazioni sul metodo differenziale in gravimetria.** (Considerations on the differential method in gravimetry. — Considérations sur la méthode différentielle en gravimétrie).
by B. GULOTTO — Cf. *Bollettino del Comitato per la Geodesia e la Geofisica, N° 3-4, Milano 1934 — pp. 114-129.*

3895. — **Variatione dell attrazione di una zona sferica su di un punto del suo asse per piccole variazioni del raggio della sfera.** (Variation of the attraction in a spherical area above a point of its axis for small variations of the radius of the sphere. — Variation de l'attraction dans une zone sphérique au-dessus d'un point de son axe pour de petites variations du rayon de la sphère).
by S. BALLARIN — Cf. Bollettino del Comitato per la Geodesia e la Geofisica N° 3-4, Milano, 1934, pp. 108-113.
3896. — **Interprétation des anomalies de la pesanteur.** (Interpretation of anomalies of gravity).
by F.A. VENING MEINESZ — Cf. Bulletin Géodésique Paris, N° 46, 1935, pp. 291-294.
3897. — **Measurements of gravity on the ice-breaking ship "Sadko" in 1935 and 1936.** (Mesures de gravité à bord du brise-glaces "Sadko" en 1935 et 1936).
Cf. Bulletin of the Arctic Institute, Leningrad, N° 10-11, 1936, pp. 501-503.
3898. — **L'étude de la pesanteur sur la mer.** (The study of gravity at sea).
by D. COT — Cf. Association d'Océanographie Physique, General Assembly at Edinburgh, Procès-Verbaux N° 2, Liverpool 1937; p. 163.
3899. — **Crustal equilibrium.** (Equilibre de l'écorce terrestre).
by G. T. M. — Cf. Empire Survey Review, London, Jan. 1937, pp. 20-38.
3900. — **Use of color-filters on geodetic instruments.** (Emploi de filtres colorés sur les instruments de géodésie).
by H.C. WARWICK — Cf. Transactions American Geophysical Union, Part. 1. Washington, 1936, pp. 41-43.
3901. — **Sur des variations périodiques des longitudes.** (On periodical variations of the longitudes).
by N. STOYKO — Cf. C.R. Ac. Sciences, Paris, 24 Mai 1937, pp. 1577-1579.

TOPOGRAPHY AND TRIANGULATION. TOPOGRAPHIE ET TRIANGULATION.

3902. — **Notes on Mountain Triangulation.** (Notes sur la triangulation en montagne).
by W.M. SCAIFE — Cf. Geodetic Letter Vol. 2, N° 3, Washington, 1936, pp. 42-56.
3903. — **A rapid method of triangulation extension for control of plane-table work.** (Méthode expéditive d'extension de la triangulation pour le contrôle des travaux à la planchette topographique).
by H.F. RAINSFORD — Cf. Empire Survey Review, London, Jan. 1937 - pp. 44-48.
3904. — **The adjustment of trigonometrical levels and the evaluation of the coefficient of terrestrial refraction.** (La compensation des nivellements trigonométriques et l'évaluation du coefficient de réfraction terrestre).
by A.J. MORLEY — Cf. Empire Survey Review, Jan. 1937 — pp. 16-20.

3905. — **Méthode de sélection des erreurs d'observation.** (Method of selection of observation errors).
by A. CALICHIOPULO — Cf. C.R. Ac. Sciences, Paris, 1^{er} Mars 1937 - pp. 642-644.
3906. — **Plane coordinate systems in regional surveys.** (Réseaux de coordonnées plans dans les levés régionaux).
by O.S. ADAMS — Cf. The Military Engineer, Washington, Jan-Feb. 1937, pp. 10-12.

OCEANOGRAPHY. — OCEANOGRAPHIE.

3907. — **Undersea Expedition.** (Expédition sous-marine).
Cf. U.S. Naval Inst. Proceedings, Annapolis, Jan. 1937 - pp. 115-116.
3908. — **The floor of the Arabian Sea.** (Le sol sous-marin de la Mer d'Arabie).
by J.D.H. WISEMAN & R.B. SEYMOUR SEWELL — Cf. Association d'Océanographie Physique, General Assembly at Edinburgh, Procès-Verbaux N° 2, Liverpool 1937, pp. 112-113.
3909. — **Die Grossgliederung des Tiefseebodens, zugleich ein Vorschlag einer systematischen geographischen Namengebung für die Tiefseebecken des Weltmeeres.** (The primary division of the deep-sea bottom, being also a proposal for a systematic geographical nomenclature of the deep-sea basins of the oceans. — La division primaire du fond océanique et proposition de nomenclature géographique systématique pour les bassins profonds des océans).
by G. WUST — Cf. Association d'Océanographie Physique, General Assembly - Edinburgh, Procès-Verbaux N° 2, Liverpool 1937, pp. 70-72.

METEOROLOGY. — METEOROLOGIE.

3910. — **Un nuovo tipo di anemometro.** (A new type of Anemometer. — Nouveau type d'Anémomètre).
by G. FEA — Cf. Bolletino del Comitato per la Geodesia e la Geofisica, N° 3, Milano 1936 — pp. 130-139.
3911. — **Come in un anemografo a trasmissione elettrica la registrazione delle direzioni possa essere errata e descrizione di un dispositivo per la relativa verifica.** (How in an Anemograph with electric transmission the reading of the directions may be in error, and description of a device for the relative verification. — Comment dans un anémographe à transmission électrique l'enregistrement de la direction peut être erronée et description d'un dispositif pour la vérification relative).
by G. CRESTANI — Cf. Bolletino del Comitato per la Geodesia e la Geofisica, N° 3, Milano 1936 — pp. 125-129.

3912. — **Sulle rapide perturbazioni atmosferiche dell'Adriatico.** (On the rapid atmospheric perturbations of the Adriatic. — Sur les perturbations atmosphériques rapides de l'Adriatique).
by F. EREDIA — Cf. Bollettino del Comitato per la Geodesia e la Geofisica, N° 1-2, Milano 1936 — pp. 44-73.
3913. — **Sull'organizzazione del Servizio Presagi Meteorologici in alcuni Stati Esteri.** (On the organisation of the weather forecasting service in a few foreign countries. — Sur l'organisation du service de prévision du temps dans quelques pays étrangers).
by G. et A. RONCALI — Cf. Bollettino del Comitato per la Geodesia e la Geofisica, N° 1, Milano, 1935, pp. 63-79.
3914. — **I ghiacci galleggianti e il codice per la trasmissione delle osservazioni eseguite dalle navi.** (Floating ice and the code for the transmission of observations carried out by ships. — Les glaces flottantes et le code pour la transmission des observations effectuées par les navires).
by F. EREDIA — Cf. Annali R. Istituto Superiore Navale, Napoli, Vol. V, fasc. II, 1936, pp. 233-240.

MAGNETISM. — MAGNÉTISME

3915. — **Influence possible des actions mécaniques (vibrations) et des perturbations magnétiques sur le champ magnétique terrestre et ses anomalies.** (Possible influence of mechanical action (vibrations) and magnetic perturbations on the Earth's magnetic field and its anomalies).
by Ch. MAURAIN — Cf. C.R. Ac. Sciences — Paris 12 Avril 1937 — pp. 1095-1097.
3916. — **Sur la nature des perturbations magnétiques.** (On the nature of magnetic perturbations).
by M. BOSSOLASCO — Cf. C.R. Ac. Sciences — Paris, 5 Oct. 1936 — pp. 676-678.

RADIO.

3917. — **The automatic Radio compass.** (Le Radio Compas automatique).
Cf. Nature, London, April 10, 1937 — pp. 642-643.

DISCOVERY EXPEDITIONS. VOYAGES DE DECOUVERTES.

3918. — **Li esplorazioni artiche di Jean Charcot.** (Jean Charcot's arctic explorations. — Les explorations arctiques de Jean Charcot).
Cf. Rivista Marittima — Roma, Feb. 1937, pp. 324-326.

3919. — **New Coastline of Antarctica.** (Nouveau contour côtier de l'Antarctique).

FIRST PART

CLASSIFICATION OF ARTICLES ACCORDING TO THE SUBJECTS
DEALT WITH.

AUTHOR	TITLE	Year	Vol.	Page
I. Hydrographic Offices and other Maritime and Scientific Organisations (Patrols, Life-saving, Observatories, Institutes of Optics, etc.)				
HELLWEG (J.F.)	(E) The United States Naval Observatory	1937	XIV-1	103
	(E) Seventy-five years from the Hydrographischen Bureau of the Royal Prussian Navy Department to the Nautischen Abteilung of the Oberkommandos der Kriegsmarine 1861-1936	1937	XIV-2	13
II. Surveying Vessels and Boats				
J. D. N.	The Brazilian Surveying Vessel "Rio Branco"	1937	XIV-1	11
J. D. N.	Surveying Boats (continued) - (Brazil)	1937	XIV-1	15
	The Brazilian surveying vessel "Jaceguay"	1937	XIV-2	21
III. Hydrographic Work (Expeditions, Surveys, E.D. & P.D. Dangers, Progress, etc.)				
	(E) The British Graham Land Expedition	1937	XIV-1	133
	High Latitude expedition on the Russian Ice Breaker <i>Sadko</i> (1935)	1937	XIV-2	177
COT (D.F.)	French Gravity Measuring Cruise in the Western part of the Mediterranean	1937	XIV-2	75
SOUTHERN (R.M.)	Surveys on the West Coast of Siam during the years 1934-1935	1937	XIV-2	81
PÉLISSIER (L.A.)	Search for Shoals	1937	XIV-2	85
	Soundings in the North Atlantic Ocean. (Corrections to Sheet A ₁ of the General Bathymetric Chart of the Oceans, 3rd Edition, April, 1935)	1937	XIV-1	97
	(E) Ramapo Bank (U.S.H.O.)	1937	XIV-1	99
GOUGENHEIM (A.)	Corrections to soundings with the Fish Lead	1937	XIV-2	155
BRUNEL (A.)	(E) Notes on the Hydrographic Drag, M-1931	1937	XIV-2	173
	(R) Annali del R. Istituto Superiore Navale, Naples, 1936	1937	XIV-2	273
	(R) Annales de l'Institut de Physique du Globe. Paris, 1937	1937	XIV-2	274

AUTHOR	TITLE	Year	Vol.	Page
IV. Echo Sounding (Equipment, Velocity of Sound, Correction of Echo Soundings, etc.)				
	Echo Sounding — XVI. (Electrolytic Recorder, Langevin-Touly Type — Outboard Oscillators for British Admiralty Echo Sounding Apparatus)	1937	XIV-1	111
	Echo Sounding — XVII. (Universal Echo Sounder (British Admiralty - Henry Hughes & Son Ltd.)	1937	XIV-2	211
	Echo Sounding devices presented by the MARCONI Sounding Device Company during the IVth International Hydrographic Conference, Monaco, 1937. (Marconi Echometer, type 421, 424, 429, 430, Marconi Magneto Striction Equipment, with Recorder).	1937	XIV-2	226
RUDE (G.T.)	The Dorsey Fathometer	1937	XIV-2	65
OGGIONI (G.)	(E) Ultra-Sonic Waves	1937	XIV-2	207
SWAINSON (O.W.)	Velocity and Ray Paths of Sound Waves in Sea Water	1937	XIV-2	93
	Insertion on Charts of Echo Soundings and the Calibration of Echo Sounding Machines. (Replies to Circular-Letter 3-H of 1933)	1937	XIV-1	71
	Plotting and Publication of Echo Soundings. (Replies to Circular Letter N° 8-H of 1934)	1937	XIV-1	87
V. Use of Aircraft and Aerial Photography for Surveying				
P. V.	(R) Einführung in die Luft — und Erdbildmessung. (Introduction to Aerial and Terrestrial Photogrammetry) (K. SCHWIDEFSESKY) Leipzig and Berlin, 1936	1937	XIV-1	145
	Results of the work carried out by the aero-photo survey expedition of the Central Hydrographical Department of <i>Gusmp</i> (Russian Chief Administration of the Northern sea route) (1935)	1937	XIV-2	181
VI. Treatises on Hydrography				
H. B.	(R) Hydrografia (Theoretical and Practical Manual for Hydrographic Surveys) (G. MAXIMOV), Leningrad, 1935	1937	XIV-1	152
H. B.	(R) Handledning I Sjömåtning (Manual for Hydrographic Surveys) (Kungl. Sjökarteverket), Stockholm, 1936.	1937	XIV-1	153
VII. Astronomy and Navigation				
FONTOURA DA COSTA	Astronomical Fixes by Azimuth — Astronomical fixes by simultaneous altitude and azimuth of the sun — Radiogoniometric fixes for distances nearer the station	1937	XIV-2	29
LA PORTE (F.)	The Track of the Orthodromic Curve on Mercator Charts.	1937	XIV-1	21

AUTHOR	TITLE	Year	Vol.	Page
H. B.	(R) Problèmes de Navigation astronomique particuliers à la Navigation Aérienne (The problems of astronomical navigation peculiar to aerial navigation. (L. DAVIOT), Paris, 1936	1937	XIV-1	145
H. B.	(R) New Nautical Tables. (FONTOURA & PENTEADO), Lisboa, 1936 — H.O. 214, U.S. Navy Department, Washington, 1936 — A. YUSTCHENKO, Leningrad, 1935	1937	XIV-1	147
H. B.	(R) Recent Nautical Tables (Aquino, Tillman)	1937	XIV-2	272
REPSOLD (A.)	Chronometer and Nautical Almanac	1937	XIV-2	246
COT (D.F.)	Aeronautical Ephemerides. — Recent Charts	1937	XIV-2	71
VIII. Radiotelegraphy and Phonotelemetry				
RUDE (G.T.)	The Sono-Radio Buoy	1937	XIV-2	66
COWIE (G.D.)	Sono-Radio Buoy	1937	XIV-2	261
McILWRAITH (C.G.)	The Sono-Radio Buoy	1937	XIV-2	258
RUDE (G.T.)	Radio Acoustic Ranging	1937	XIV-2	67
TUCKER (W.S.)	(E) Direction Finding by Sound	1937	XIV-1	141
	The automatic Radio Compass	1937	XIV-2	245
IX. Geographical Positions (Longitudes, Meridians of Origin)				
None.				
X. Geodesy (Ellipsoid, Pendulum, Method of Least Squares, etc.)				
LEAHY (L.R.)	Gravity measuring cruise of U.S. <i>Barracuda</i>	1937	XIV-2	69
VENING MEINESZ (F.A.) ..	(E) Interpretation of the Anomalies of Gravity	1937	XIV-1	107
	World Longitudes	1937	XIV-1	109
	(R) Tavole fondamentali per la riduzione dei valori osservati della gravita. (Fundamental Tables for Reducing observed Gravity Values) (G. CASSINIS, P. DORE, S. BALLARIN) Milano, 1937	1937	XIV-2	275
HOTINE (M.)	(E) The East African Arc	1937	XIV-1	142
J. D. N.	Association of Physical Oceanography; International Union of Geodesy and Geophysics	1937	XIV-1	17
	(R) International Geodetic Bibliography (G. PERRIER and P. TARDI) Paris, 1935	1937	XIV-1	151

AUTHOR	TITLE	Year	Vol.	Page
XI. Tides and Currents (Tide Gauges, etc.)				
J. D. N.	(R) Tidal Atlas for Kara Strait. (Arctic Institute), Leningrad, 1937	1937	XIV-2	268
H. B.	(R) Results of Tidal Observations (J.E. FJELDSTAD) Bergen, 1936.	1937	XIV-1	151
	An Harmonic Tide Computer	1937	XIV-1	124
BENCKER (H.)	A calendar of the fundamental Harmonic Tides and diagrams for their graphical prediction	1937	XIV-2	53
CABALLERO y LASTRES (E.)	Motives and Considerations concerning the official appellation of Peruvian Current	1937	XIV-2	61
P. V.	(R) Quantitative Untersuchungen zur Statik und Dynamik des Atlantischen Ozeans 2. Lieferung — Ausbreitungs- und Vermischungsvorgänge im subantarktischen Zwischenwasser. (Quantitative research on the statics and dynamics of the Atlantic Ocean: The phenomena of Diffusion and Mixing of the Antarctic bottom water and the Subantarctic intermediate waters) (A. DEFANT) Berlin & Leipzig, 1936	1937	XIV-2	197
P. V.	(R) Schichtung und Zirkulation des Atlantischen Ozeans — Zweite Lieferung — Die Stratosphäre (G. Wüst), Berlin & Leipzig, 1935	1937	XIV-2	199
THORADE (H.)	The Stratosphere and the Troposphere of the Atlantic Ocean.	1937	XIV-2	187
VALLAUX (C.)	(E) New American Research on the Circulation of the North Atlantic	1937	XIV-2	183
P. V.	(R) A study of the Circulation of the Western North Atlantic (C. O'D. ISELIN); Massachusetts 1936	1937	XIV-1	143
H. B.	(R) Currents in Narragansett Bay, Buzzards Bay and Nantucket & Vineyard Sounds. (F.G. HAIGHT). (S.P. N° 208 C. & G.S., Washington, 1936)	1937	XIV-2	268
P. V.	(R) Kuroshio und Golfstrom. (G. Wüst), Berlin, 1936	1937	XIV-1	144
	Description of two methods of using the Wollaston Current Meter	1937	XIV-1	126
TANNEHILL (I.R.)	(E) Sea Swells in relation to the Movement and Intensity of Tropical Storms	1937	XIV-1	135
H. B.	(R) Connection between the swell along the coast of Morocco and the microseismic disturbances in Western Europe (P. BERNARD), Paris, 1937	1937	XIV-2	271
XII. Lights, Signals, Buoyage (Aids to Navigation)				
	Different Means of Lighting and the Range of Lights with Reflectors	1937	XIV-1	137

AUTHOR	TITLE	Year	Vol.	Page
XIII. Magnetism, Meteorology, Oceanography				
LJUNGAHL (G.S.)	Isogonic Charts	1937	XIV-1	33
P. V.	(R) Die Lage der Meeresoberfläche im Druckfeld von Ozean und Atmosphäre — Über bewegung und Herkunft des Golfstromwassers. (G. DIETRICH) Berlin, 1936	1937	XIV-2	201
H. B.	(R) The Minimum oxygen concentration in the western basin of the North Atlantic. (H.R. SEIWELL) Massachusetts, 1937.	1937	XIV-2	203
H. B.	(R) Short period vertical oscillations in the western basin of the North Atlantic (H.R. SEIWELL) Massachusetts, 1937	1937	XIV-2	205
H. B.	(R) Atlas of Oceanographic and Meteorological observations in the China Seas and in the Western part of the North Pacific Ocean (Kon. Magn. Ins. — 'sGravenhage, 1936)	1937	XIV-2	270
XIV. Various Instruments (Sextants, Chronographs, Chronometers, etc.)				
	Wild Geodetic and Topographic Instruments exhibited during the IVth International Hydrographic Conference, Monaco, 1937	1937	XIV-2	229
	(E) Tavistock Theodolite (Cooke, Troughton & Simms Ltd)	1937	XIV-1	115
	(E) Modifications to WILD Theodolites	1937	XIV-1	116
	(E) Surveyor's Level — Series S 300 (Cooke, Troughton & Simms Ltd.)	1937	XIV-1	116
WEEMS (P.V.H.)	The averaging Sextant	1937	XIV-2	244
	The HAGNER Position Finder (Henry Hughes & Son Ltd.).	1937	XIV-1	121
H. B.	The Husun Filament Card Dead-Beat compass with non-resonant suspension	1937	XIV-2	242
	(R) A graphical Method for calculating the corrections on deep-sea reversing thermometers (J.P. TULLY), Copenhagen 1937	1937	XIV-2	264
LAUWERS (J.)	Apparatus for taking Samples of Sea Water	1937	XIV-1	124
XV. Cartography (Projections, Symbols, Use of Original Charts, Air Charts, etc.)				
VANSSAY DE BLAVOUS (P. de)	Generalization of the Conformal Conic Projection and the Double Circular Projection of the Sphere	1937	XIV-1	39
STIGANT (G.B.)	Cartography	1937	XIV-2	87
P. V.	(R) Ebene Kugelbilder (Ein Linnésches System der Kartenentwürfe) — (Plane representations of the Sphere, A Classification of the Cartographic Projections according to Linné Method) (Dr. H. MAURER) Gotha, 1935	1937	XIV-2	267

AUTHOR	TITLE	Year	Vol.	Page
XVI. Nomenclature and Units (Terminology, Notations, etc.)				
	(R) Japanese Place Names (Hydrographic Department, Tokyô, 1936)	1937	XIV-1	101
XVII. Engraving and Reproduction of Charts.				
ODELSIÖ (H.)	On the engraving of Chartplates by Galvanic Etching	1937	XIV-2	25
XVIII. Historical, Personal and Obituary Notices				
CLARK (E.S.)	(E) Nathaniel BOWDITCH, LL.D. Mathematician, Navigator, Astronomer (1773-1838)	1937	XIV-2	7
	Captain Francisco Vidal GORMAZ (1838-1907)	1937	XIV-2	11
	Doctor SINKITI OGURA (1884-1936)	1937	XIV-1	8
PÉLISSIER (L.A.)	Carte du Comité France-Amérique	1937	XIV-2	77
XIX. International Hydrographic Bureau, Work, Conferences				
None.				
XX. Miscellaneous				
H. B.	(R) Ricerche sul Regime dei Litorali nel Mediterraneo (Investigation of the formation of the Mediterranean Shoreline) (A. D'ARRIGO), Rome, 1936	1937	XIV-1	154
	(R) On the division of Earth's surface into zones of illumination (R. PUTNIS) Riga, 1935	1937	XIV-2	268
XXI. Practical Hints to Hydrographic Surveyors				
ANDERSON (B.J.)	(E) Construction of Marine Towers	1937	XIV-1	129
SCAIFE (W.M.)	(E) Targets and Station Marks for Mountain Triangulation	1937	XIV-1	130
DURANT-GOSSELIN, DAMIANI	(E) Notes on the use of Metallic Targets	1937	XIV-2	255
CLAYTON (P.A.)	The Measurement of Short distances by Range-Finder	1937	XIV-2	264
EYMAN (R.P.)	Protractor fitting for wire drag	1937	XIV-2	263
BORDEN (F.S.)	Tidal Observations at sea with the Dorsey Fathometer	1937	XIV-2	255
XXII. Bibliography				
Books of Reference and Documentary Bibliography :				
	N° 3735 - 3832	1937	XIV-1	155
	N° 3833 - 3920	1937	XIV-2	277
XXIII. Errata to the Hydrographic Review				
	Vol. XIII, N° 1			page 9
	Vol. XIII, N° 2	1937	XIV-1	page 114, 175

SECOND PART

ALPHABETICAL INDEX OF THE NAMES OF AUTHORS OF ARTICLES WHICH HAVE BEEN PUBLISHED IN THE HYDROGRAPHIC REVIEW.

AUTHOR	TITLE	Year	Vol.	Page
A				
ANDERSON (B.J.)	(E) Construction of Marine Towers	1937	XIV-1	129
B				
BENCKER (H.)	A calendar of the fundamental Harmonic Tides and diagrams for their graphical prediction	1937	XIV-2	53
H. B.	(R) Hydrografia (Theoretical and Practical Manual for Hydrographic Surveys) (G. MAXIMOV), Leningrad, 1935	1937	XIV-1	152
— d° —	(R) Handledning I Sjömåtning (Manual for Hydrographic Surveys) (Kungl. Sjökartverket), Stockholm, 1936.	1937	XIV-1	153
— d° —	(R) Results of Tidal Observations (J.E. FJELDSTAD) Bergen, 1936.	1937	XIV-1	151
— d° —	(R) Currents in Narragansett Bay, Buzzards Bay and Nantucket & Vineyard Sounds. (F.G. HAIGHT). (S.P. N° 208 C. & G.S., Washington, 1936)	1937	XIV-2	268
— d° —	(R) Connection between the swell along the coast of Morocco and the microseismic disturbances in Western Europe (P. BERNARD), Paris, 1937	1937	XIV-2	271
— d° —	(R) Problèmes de Navigation astronomique particuliers à la Navigation Aérienne (The problems of astronomical navigation peculiar to aerial navigation. (L. DAVIOT), Paris, 1936	1937	XIV-1	145
— d° —	(R) New Nautical Tables. (FONTOURA & PENTEADO), Lisboa, 1936 — H.O. 214, U.S. Navy Department, Washington, 1936 — A. YUSTCHENKO, Leningrad, 1935	1937	XIV-1	147
— d° —	(R) Recent Nautical Tables (Aquino, Tillman)	1937	XIV-2	272
— d° —	The Husun Filament Card Dead-Beat compass with non-resonant suspension	1937	XIV-2	242
— d° —	(R) Atlas of Oceanographic and Meteorological observations in the China Seas and in the Western part of the North Pacific Ocean (Kon. Magn. Ins. — 'sGravenhage, 1936)	1937	XIV-2	270
— d° —	(R) Short period vertical oscillations in the western basin of the North Atlantic (H.R. SEIWELL) Massachusetts, 1937	1937	XIV-2	205
— d° —	(R) The Minimum oxygen concentration in the western basin of the North Atlantic. (H.R. SEIWELL) Massachusetts, 1937.	1937	XIV-2	203
— d° —	(R) Ricerche sul Regime dei Litorali nel Mediterraneo (Investigation of the formation of the Mediterranean Shoreline) (A. D'ARRIGO), Rome, 1936	1937	XIV-1	154
BORDEN (F.S.)	Tidal Observations at sea with the Dorsey Fathometer	1937	XIV-2	255
BRUNEL (A)	(E) Notes on the Hydrographic Drag, M-1931	1937	XIV-2	173

AUTHOR	TITLE	Year	Vol.	Page
C				
CABALLERO y LASTRES (E.)	Motives and Considerations concerning the official appellation of Peruvian Current	1937	XIV-2	61
CLARK (E.S.)	(E) Nathaniel BOWDITCH, LL.D. Mathematician, Navigator, Astronomer (1773-1838)	1937	XIV-2	7
CLAYTON (P.A.)	The Measurement of Short distances by Range-Finder	1937	XIV-2	264
COT (D.F.)	French Gravity Measuring Cruise in the Western part of the Mediterranean	1937	XIV-2	75
