

ERRATUM TO "THE HYDROGRAPHIC REVIEW"

(VOL. XII, N° 1, MAY 1935).

The Use of Air-craft in Surveying.

PAGE 15, line 6 from bottom :

Read : "It is sufficient to consider only four common points etc."

PAGE 16, line 6 from bottom :

Add : "We shall assume that all 4 points on the ground are on the same plane".

False Echoes in Deep Water.

PAGE 19, line 8 from bottom :

Read : "at the point marked 1 on record N° 1".

Instruments for Observing Equal-Altitudes in Astronomy.

PAGE 50, line 17 :

Read : "An *equilateral prism* is placed against the object-glass oo".

PAGE 52, line 2 :

Read : "over earlier ones chiefly as regards the shape etc."

PAGE 53, line 4 :

Read : "gives $dy = - 7 dF$, etc."

PAGE 56, line 11 :

Read : "Some types have movable etc."

PAGE 65, line 23 :

Read : " $\pm 0^s,05$ for, etc."

PAGE 69, line 19 :

Read : "When $h = 60^\circ$ and $F = 600$ mm. etc"

PAGE 72, line 2 from bottom :

Read : "..... $\frac{q}{\cos h}$ etc".

PAGE 79, line 14 :

Read : ".....two plane steel mirrors etc".

PAGE 81, line 3 from bottom :

Read : ".....for an isolated sight (0.03°)."

PAGE 91, line 26 from bottom :

Read : " Cp_2 's and their etc".

PAGE 113, line 13 from bottom :

Read : "added to the dCp obtained."
