

ALL CANADIAN SERIES

The Conference of Governing Bodies of the Legal Profession in Canada is investigating the feasibility of consolidating the Provincial Reports into one series of reports. This would mean rather than having M.P.R.'s, D. L. R.'s, etc., there would be one All Canadian Series or equivalent. This would result in a great saving in the cost of printing and production. The British Columbia Bar is already investigating the possibility of ceasing the publication of Provincial Reports. This is a matter which requires the utmost consideration by every lawyer as it will effect his practise to no little degree.
